Trading Up

Materials:
- 1 bag of money for each player
  - 5 pennies
  - 2 nickels
  - 2 dimes
  - 4 quarters
  - One dollar bill
- 2 dice
- Trading Up gameboard

Directions:
- Players toss two dice each. Player with highest sum goes first.
- Player A tosses both dice and finds the sum. Player A takes that many cents from his/her money bag and arranges it on the gameboard using the fewest coins possible.
- Player B tosses both dice and finds the sum. Player B takes that many cents from his/her money bag and arranges it on the gameboard using the fewest coins possible.
- Player A tosses both dice and finds the sum. Player A takes that many cents from his/her money bag and arranges it on the gameboard, trading up to larger value coins as much as possible. NOTE: Player A may not have more coins in a row than there are outlines in that row.
- Player B plays the same as Player A above.
- The first player to trade up to a dollar bill wins the game. NOTE: The winning player may go over one dollar.
